Computer Science graduate and PC builder since age 14, with experience in release management, cloud infrastructure, and full-stack development. Led 200+ production deployments at TD Bank; spec and build systems for friends and family and run Linux daily.

PROFESSIONAL EXPERIENCE

Individual Provider (Caregiver) — Consumer Direct Care Network WA / DSHS 2025 – Present

- Provide in-home care for two clients under state-authorized care plans; coordinate schedules and appointments and log service hours for DSHS.

Freelance Illustrator & Self-Published Comic Artist 2024 – Present

- Take paid art commissions from quote to delivery, and write, illustrate, and self-publish original comics.

Deployment Lead — TD Bank, Mount Laurel, NJ Mar 2023 – Sep 2024

- Led 200+ production deployments for TD's Customer Identity & Access Management product family across multiple development teams.
- Wrote the Deployment Lead best-practices guide and trained new hires on SAFe release planning.
- Built a Next.js change-order tracker to replace a spreadsheet-based release process.

Cloud Application Developer — Weyerhaeuser, Seattle, WA Jan 2019 – Jan 2020

- Provisioned SQL Server instances and migrations, and built tooling to automate SQL Server installation.
- Deployed Azure infrastructure and automated access-log auditing through Azure DevOps.
- Created the functional-testing workflow and documentation used by application developers.

PROJECTS

Obfuscated Resonance — Godot 4, GDScript In development

- Arcade puzzle game mixing bubble-shooter play, timed quizzes, and branching visual-novel cutscenes; all pixel art drawn by hand.
- Built a deterministic ray-sweep shot simulator on a hex grid that computes each shot's landing cell before it fires, so aim previews always match results and lay the groundwork for networked play.
- Designed all game systems independently; used Claude Code for AI-assisted testing, debugging, and prototyping.

AMLookup — Nuxt/Vue site that searches anime and manga titles through the Jikan (MyAnimeList) REST API, filterable by medium.

TECHNICAL SKILLS

Hardware & Systems: PC building and custom specs, NAS build (in progress), Linux (Arch-based), Windows, GPU driver troubleshooting

Languages: JavaScript, TypeScript, Python, GDScript, Java, C#, C, SQL, PowerShell, HTML/CSS

Frameworks & Tools: React, Next.js, Vue/Nuxt, Spring, Tailwind CSS, GraphQL, Azure, Azure DevOps, Jira, ServiceNow, SQL Server, Git, Godot, Claude Code, Photoshop, Figma, Blender

Certifications: SAFe 6 Agilist

EDUCATION

B.S., Computer Science & Systems — University of Washington Tacoma Dec 2016

Certificate in Front-End Web Development — University of Washington 2021
